

San Diego County Sanitation District

● Permits

PERMIT TYPES:

Wastewater Discharge Permit (Residential, Commercial)	Traffic Control Permit
Wastewater Sewer Construction Permit	Encroachment Permit
Wastewater Encroachment Permit	Industrial Wastewater Discharge Permit
Excavation/Construction Permit	Batch Discharge Permit

Connection to the Sanitation District's sewerage system requires a wastewater discharge permit; this will be issued to Residential, Commercial, or Industrial users.

Projects involving the construction of sewer pipes may also require excavation, traffic control, or encroachment permits depending on project circumstances. Utilities or objects proposed to be placed in close proximity to a District sewer line, or within a District easement, may require a wastewater encroachment permit. Certain types of businesses may also be required to obtain an industrial waste discharge permit based on the chemical constituents of their discharge.

Short-term construction or remediation projects that will generate temporary wastewater discharges are required to obtain a batch discharge permit.

WHERE TO OBTAIN:

Most permits described above can be obtained at the County's Department of Planning and Development Services located at 5510 Overland Avenue, San Diego, CA 92123. Any permit for industrial wastewater discharge or batch discharge will be issued by the City of San Diego's Industrial Wastewater Control Program, but will be coordinated by a District representative by contacting (858) 514-4990.
